About Me

As a passionate Full Stack Engineer with extensive experience in digital payment solutions, and cloud technologies, I am dedicated to leveraging my technical skills to build innovative, scalable, and impactful solutions. I thrive in dynamic environments where collaboration, problem-solving, and continuous learning are key to achieving success.

Education

- Master of Business Administration (iMBA)**
University of Wolverhampton
2022 - 2024
- BSC Hons in Computing**
University of Wolverhampton
2017 - 2020

Skills

Java

Spring Boot

AngularJS

Kubernetes

Kafka

Micronaut

Jenkins

SQL

NoSQL

NodeJS

FinTech

Redis

AWS

NextJS

Argo CD

CI/CD

React Native

Grafana

Experience

- Full Stack Engineer

2023 - Present

Fonepay Pvt. Ltd | Pulchowk, Lalitpur, Nepal

 - Led and collaborated with a dynamic development team to architect and implement innovative full-stack solutions using Java, Angular.js, Kubernetes, Jenkins.
 - Enhanced product performance and scalability through the integration of **Microservices** and technologies such as **Redis**, **Kafka**, **CI/CD**.
 - Optimized legacy systems, reducing production issues and improving overall product quality.
 - Demonstrated strong problem-solving skills by identifying and resolving critical production issues in real-time, ensuring high availability.
 - Mentored junior developers and facilitated knowledge-sharing sessions
 - Assigned as part of the **SRE (Site Reliability Engineering)** team, focusing on system reliability, performance monitoring, and automation to ensure seamless production operations.
- Senior Associate Engineer

2021 - 2023

Fonepay Pvt. Ltd | Pulchowk, Lalitpur, Nepal

 - Spearheaded the integration of Cross-Border Payments and **UPI (Unified Payments Interface)** in Nepal, ensuring seamless payment experiences.
 - Contributed significantly to Digital Payment Solutions like **QR Code payments**, **IBFT (Interbank Funds Transfer)**, **IWFT (Interbank Wallet Fund Transfer)**, **NFC-based payments**, and **Web-based Payments**.
 - Worked closely with stakeholders to define requirements and enhance digital payment infrastructures.
 - Utilized RESTful APIs and Web Services to integrate various payment solutions, ensuring compliance with regulatory standards.
 - Improved payment systems' security by implementing **SSL/TLS** encryption and tokenization techniques to secure transactions.
- Software Engineer

2021 - 2021

Fonepay Pvt. Ltd | Pulchowk, Lalitpur, Nepal

 - Contributed to the development, testing, and maintenance of reliable and scalable software systems and architecture.
 - Applied proficiency in **Java (Spring Boot)**, **Angular.js**, and **SQL** to design efficient algorithms and solve complex software engineering challenges.
 - Debugged and optimized code to enhance performance, reducing latency.
 - Collaborated with cross-functional teams to deliver product features on time while adhering to coding standards and best practices.
 - Improved system stability by identifying and resolving software bugs and issues in a timely manner.
